Summary

Detail-oriented MERN Stack Developer skilled in building scalable, secure, and user-friendly web applications. Proficient in engineering responsive frontends with React.js and modern styling tools, alongside robust backends using Node.js, Express.js, and MongoDB. Experienced in designing RESTful APIs, implementing secure JWT authentication, and managing complex application state. Dedicated to writing clean, maintainable code and optimizing full-stack performance to solve real-world problems.

Education

University Of Delhi

B.A Computer Application (Final Year) - CGPA: 7.82

August 2024 – Running

New Delhi

Govt. Sen. Sec. School

Class 12th in EM - Percentage: 61%

Mar 2023 – Mar 2024

- Node.js
- MongoDB

Projects

nsedu.in - College Portal 🗄️ | ReactJS, HTML5, CSS3, JavaScript, UI/UX

May 2026

- Designed and developed the front-end interface for nsedu.in using ReactJS to provide a modern, highly accessible portal for students and faculty.
- Built modular, reusable React components and established clear routing to handle institutional resources, course catalogs, and campus announcements.
- Optimized layout performance and asset loading, ensuring a fully responsive user interface across all mobile, tablet, and desktop devices.
- Collaborated on UI/UX wireframes to streamline user flows, reducing navigation friction and improving information accessibility.

Blinkit Clone 🗄️ | React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Tailwind CSS

2025

- Developed a full-stack Blinkit Clone using the MERN Stack with a responsive and user-friendly interface.
- Implemented secure JWT-based user authentication, authorization, and profile management.
- Built core e-commerce features including product browsing, search, category filtering, shopping cart, and order management.
- Integrated REST APIs with MongoDB for efficient product, user, and order data management.
- Deployed the application with a scalable backend and optimized frontend performance for a seamless user experience.

Portfolio Website 🗄️ | React.js, JavaScript, HTML5, CSS3

2025

- Designed and developed a responsive personal portfolio website using React.js to showcase projects, skills, and contact information.
- Built reusable React components and implemented a clean, modern, and user-friendly interface.
- Optimized the website for different screen sizes using responsive design techniques.
- Added smooth navigation, interactive UI elements, and project showcase sections to improve user experience.

Technical Skills

Languages: JavaScript, HTML5, CSS3

Frontend: React.js, Redux Toolkit, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js

Database: MongoDB, Mongoose

Tools: Git, GitHub, VS Code, Postman, Vercel, Render

Concepts: REST APIs, JWT Authentication, Responsive Design, CRUD Operations, MVC Architecture

Soft Skills: Problem Solving, Teamwork, Communication, Time Management
